***Detailed Action***

***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: The best art combination, US 6,387,523 to Bunyan et al and US 6,147,017 to Fastenau are completely silent with regards to the claimed surface occupancy ratios of the warp and weft fibers. In a declaration filed 11-17-04, Applicant clearly demonstrates the particular advantages associated with selecting the claimed warp and weft surface occupancy ratios. In particular, warp and weft surface occupancy ratios within the claimed range possess an improved EMI shielding performance that Bunyan et al and Fastenau alone or in combination have failed to contemplate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
